exposure.

Exceptions to quarantine:

- Recovered from COVID within last 90 days
- Masks were worn appropriately and consistently by both the person that tested positive and the person potentially exposed
- Tested positive for antibodies within the last 90 days or immediately following exposure.
- Fully vaccinated

AT LEAST 1 SYMPTOM**

- Fever
- Chills
- Shortness of breath/difficulty breathing
- New cough
- New lost of taste or smell

Cannot go to school today.

- Home for 10 days since first symptoms, no fever for 24 hours (without the use of fever reducing medicine), AND symptom improvement, including coughing and shortness of breath
- If negative PCR /molecular COVID-19 test: Home until no fever for 24 hours (without the use of fever reducing medicine), AND they have felt well for 24 hours
- If they receive an alternate diagnosis from a health care provider, and the health care provider determines no COVID-19 testing needed, can return to school, following normal school policies, once there is no fever without the use of fever-reducing medicines and they have felt well for 24 hours . The health care provider is not required to detail the specifics of the alternate diagnosis that would explain symptoms.

* Exposure refers to being within 6 feet of someone diagnosed with COVID-19 for 15 minutes or more cumulative over a 24-hour period .

** The more narrow set of COVID-19 symptoms listed here reflects required exclusionary symptoms in order to avoid over-exclusion of people from school facilities .
